

Heating and Air Conditioning Replacement Project

The Pulaski County Sole Commissioner is seeking quotes from licensed HVAC contractors for heating and air conditioning replacement in the Pulaski County Government Services building at 45 S. Lumpkin St., Hawkinsville, Ga.

To be considered, quotes must be received by 10:00 a.m. on Nov. 18, 2011, at the Pulaski County Commissioner's Office, Attn: Mr. Brooks Bailey, P. O. Box 29, 45 S. Lumpkin St., Hawkinsville, Ga. 31036.

Work Requirements:

Install two heating and air conditioning units following standard electrical and safety standards. The locations of the units to be replaced will be provided by visit to site.

Each HVAC system will be greater than equal to 14.5 SEER and Energy Star Rated. The HVAC systems must be Buy American Compliant and documentation presented to the County before final contractor selection is made.

Except for the above critical requirement each contractor may submit to the county his or her plan on how best to meet the County's objective of providing the best HVAC systems for these offices for the best value. Helpful suggestions from one contractor may be shared with other contractors.

Contractor will schedule with each individual office the date and time of installation with some offices requiring after hours installation.

Office desk and counter areas must be covered with cloth or plastic to protect these areas from dust and debris.

Existing units will be stored on the premise by contractor in area designated by the county. (The county will separate the materials and deliver to recycling center. The county will retain all earning provided by the recycler).

All work will be inspected and must be approved by the City/County Building Inspector.

All work must be completed and invoices for payment submitted by Jan.. 24th, 2012.

Successful bidder must:

- 1. be licensed Heating and Air Conditioning contractor in State of Georgia**
- 2. provide proof of Worker's Compensation and General Liability insurance coverage**
- 3. comply with Davis-Bacon requirements including submission of certified payroll weekly during course of project**
- 4. Comply with State of Georgia E-Verify Affidavit**
- 5. Follow flow-down provisions of AARA funding (see attachment)**

For additional information contact Hugh Coleman, Energy Grant Administrator, at 478-278-8459.

Fluorescent Lighting Fixture Replacement Project

The Pulaski County Sole Commissioner is seeking quotes from licensed Electricians for fluorescent lighting fixture replacement in the Pulaski County Government Services building at 45 S. Lumpkin St., Hawkinsville, Ga.

Quote dollar amount for installation of each individual fixture.

To be considered, quotes must be received by 10:00 a.m. on Nov. 18, 2011, at the Pulaski County Commissioner's Office, Attn: Mr. Brooks Bailey, P. O. Box 29, 45 S. Lumpkin St., Hawkinsville, Ga. 31036.

Work Requirements:

Install 19 two by four ft. troffer fixtures following standard electrical and safety standards including installation of ground wire.

The county will provide the fixtures and any additional wire needed.

Contractor will schedule with each individual office the date and time of installation with some offices requiring after hours installation.

Office desk and counter areas must be covered with cloth or plastic to protect these areas from dust and debris.

Existing bulbs will be sorted according to condition prior to fixture removal and upon removal stored in manner described by county.

Existing fixtures will be stacked and stored on the premise by contractor in area designated by the county. (The county will separate the materials and deliver to recycling center. The county will retain all earning provided by the recycler).

All work will be inspected and must be approved by the City/County Building Inspector.

All work must be completed and invoices for payment submitted by Dec. 27th, 2011.

Successful bidder must:

- 1. be licensed electrician in State of Georgia**
- 2. provide proof of Worker's Compensation and General Liability insurance coverage.**
- 3. comply with Davis-Bacon requirements including submission of certified payroll weekly during course of project**
- 4. Comply with State of Georgia E-Verify Affidavit**

For additional information contact Hugh Coleman, Energy Grant Administrator, at 478-278-8459.

Circulation Pump Replacement Project

The Pulaski County Sole Commissioner is seeking quotes from licensed plumbers or electricians for circulation pump replacement in the Pulaski County Elementary School Kitchen.

To be considered, quotes must be received by 10:00 a.m. on Nov. 18, 2011, at the Pulaski County Commissioner's Office, Attn: Mr. Brooks Bailey, P. O. Box 29, 45 S. Lumpkin St., Hawkinsville, Ga. 31036.

Work Requirements:

Install circulation pump following standard electrical and safety standards. The locations of the unit to be replaced will be provided by visit to site.

The pump must be time and temperature controlled, capable of sufficient flow and easily replaceable.

Except for the above critical requirement each contractor may submit to the county his or her plan on how best to meet the County's objective of providing the best pump system for the best value. Helpful suggestions from one contractor may be shared with other contractors.

All work will be inspected and must be approved by the City/County Building Inspector.

All work must be completed and invoices for payment submitted by Jan.. 24th, 2012.

Successful bidder must:

- 1. be licensed plumber or electrician in State of Georgia**
- 2. provide proof of Worker's Compensation and General Liability insurance coverage**
- 3. comply with Davis-Bacon requirements including submission of certified payroll weekly during course of project**
- 4. Comply with State of Georgia E-Verify Affidavit**
- 5. Follow flow-down provisions of AARA funding (see attachment)**
